this is an introduction for social science students to the growing field of spatial data analysis using the *r* platform the text assumes no prior knowledge of either beyond the contents of an introductory statistics course it uses the open source software *r* and relevant spatial data analysis packages to provide practical guidance of how to conduct spatial data analysis with readers own data sets the book first briefly introduces students to *r* covers some basic concepts in statistical data analysis and then focuses on discussing the central ideas of spatial data analysis all the discussions are supported with *r* scripts so that students can work on their own and produce results that the book helps interpret each chapter ends with review questions to test understanding the book is suited for upper level undergraduate social science students and graduate students and other social scientists who are interested in analyzing their spatial data with *r* a companion website for the book at [edge.sagepub.com/you](http://edge.sagepub.com/you) includes *r* code and data for students to replicate the examples in the book the password protected instructor side of the site includes exercises and answers which can be set for homework

the interval offers the first sustained analysis of the concept grounding *irigaray's* thought the constitutive yet incalculable interval of sexual difference in an extension of *irigaray's* project hill takes up her formulation of the interval as a way of rereading aristotle's concept of *topos* and bergson's concept of duration hill diagnoses a sexed hierarchy at the heart of aristotle's and bergson's presentations yet beyond that phallocentrism she points out how aristotle's theory of *topos* as a sensible relation between two bodies that differ in being and bergson's intuition of duration as an incalculable

threshold of becoming are indispensable to the feminist effort to think about sexual difference reading Irigaray with Aristotle and Bergson Hill argues that the interval cannot be grasped as a space between two identities it must be characterized as the sensible threshold of becoming constitutive of the very identity of beings the interval is the place of the possibility of sexed subjectivity and intersubjectivity the interval is also a threshold of the becoming of sexed forces

contemporary research in personality social psychology and sociology has renewed an interest in the self this volume argues that the self may consist of multiple selves any of which may interact with each other in a dialogical fashion the self is presented as a non unitary embodiment that transcends the limits of individualism and rationalism beginning with philosophical discussion of the self this volume discusses the decentralization of the self in narrative psychology the retreat of the omniscient narrator in literary sciences the genesis of self knowledge in children and the concept of modern society as a multiplicity of collective voices

Powers of Freedom first published in 1999 offers a compelling approach to the analysis of political power which extends Foucault's hypotheses on governmentality in challenging ways Nikolas Rose sets out the key characteristics of this approach to political power and analyses the government of conduct he analyses the role of expertise the politics of numbers technologies of economic management and the political uses of space he illuminates the relation of this approach to contemporary theories of risk society and the sociology of governance he argues that freedom is not the opposite of government but one of its key inventions and most significant resources he also seeks some rapprochement between analyses of government and the concerns of critical sociology cultural studies and Marxism to establish a basis for the critique of power and its exercise the book will be of interest to students and scholars in political theory sociology social policy and cultural studies

each volume in this series provides an introduction tracing the subject author's critical reputation trends in interpretation developments in textual and biographical scholarship and reprints of selected essays and reviews beginning with the author's contemporaries and continuing through to current scholarship many volumes also feature new essays by leading scholars and critics specially commissioned for the series
